

VERTICAL SLOTTING MACHINE CAMS MOD.200 SAC

TECHNICAL CHARACTERISTICS

• tool stroke adjustable from zero to □	mm.	0-200
• distance between pillar and toolholder □	mm.	350
• distance between table and head	mm.	460
• vertical movement of slide	mm.	370
• table size	mm.	280x550
• longitudinal table travel	mm.	250
• cross travel	mm.	250
• hole central diameter	mm.	80
• number of variable blows per minute	n°	30-120
• motor power	HP	3
• floor space	mm.	770x1300
• height machine	mm.	2300
• approx weight	Kg.	1100

STANDARD ACCESSORIES

- Automatic tool detachment
- Automatic longitudinal table feed
- Quick return of the table to the starting point and automatic stop of the slide at the top
- Self-centering chuck with 3 guides
- Splash guard
